

GRUFFALO HEADBANDS

Step by step guide to creating your very own Gruffalo...

1. Using the free template on Kidssoup.com to trace the patterns on to cardboard paper. The patterns traced should be the **two horns**, **two eyes**, **two ears** and **4 teeth**.

2. For the **band**, cut out **two** strips lengthways from the **brown craft paper**. Overlap the ends and tape together to fit around the head.
3. Start to decorate your headband to create your Gruffalo by sticking on the patterns you've traced. And remember to make it as fun and crazy as you want!

4. Use the pens and pencils to draw on your eyes and ear fur as shown in the photos above

5. When you've finished sticking and decorating wrap the band around your head and staple together at the back. This bit can get a little tricky so ask for help from an adult.
6. You're finally an official GRUFFALO!
