

WELCOMING YOU BACK SAFELY

We want you, and our staff and artists, to feel safe during your visit to Chichester Festival Theatre. To this end, we have put a number of COVID-safety measures in place, following Government guidance for theatre attendance at all times.

- Our **socially-distanced auditorium** offers a reduced capacity of just under 50% ensuring a 1m-plus space between parties
- **Seat bubbles** are available as groups of 1 to 6 seats.
- **E-tickets** will be issued as standard. These do not have to be printed but can be shown on your smartphone or similar device for us to scan on entry. In order to reduce queueing and minimise contact, tickets will not be available for collection from the Box Office
- Tickets will detail **timed arrivals** with an assigned door number
- Contactless **temperature checks** will be carried out at point of entry
- **Face coverings** are required unless exempt for health reasons. Front of House staff will also wear face coverings
- Contact details are collected during the booking process to support **NHS Test and Trace**
- We will carry out **enhanced cleaning** of the auditorium between performances
- **Hand sanitising** stations are positioned throughout the building
- **Cloakrooms** will not be available so please bringing minimal belongings
- The **Bars and Café** will be open during your visit but transactions will be cashless and paperless, with one-way systems in place and perspex screens fitted at all sale points
- **Additional signage** will be in place to manage social distancing and audience flow

These measures will be reviewed and updated in line with Government guidelines.

Please visit our **Frequently Asked Questions** for more information about your visit or go to our **COVID ticketing terms and conditions**.
